POCKET

Digital manometer

Guaranteed pressure and vacuum measurements

Performances

Dual display: instant and min/max
Measurement unit selection: bar, mbar, hPa, MPa et PSI
Set to zero on atmospheric pressure
Measurement range: -1 to +3 bar
Accuracy: +/- 0,1% full scale (FS)
"Peak" function: polling at 5 000 Hz
Indicators: low battery, measurement unit, overload...

Specificities

Ingress protection rating IP 65 (IP 67 in option)
Powered by long-lasting batteries
interchangeable by user
All-stainless-steel sensor
Fully maintenance free
Standard 1/4 male gas couplings

Applications

Packaging control:
2 types of perforators for flexible and rigid packaging
(vacuum heat sealing and seaming certified)
Retort control:
with connection cannula
(setting of pressure scale for flexible packaging)
