

RECCAP Standard / AXImini

Get the most from your sensors' potential

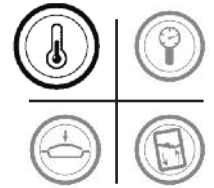

- The "Must" in secured data
- The most user-friendly "Quality" software
- The widest processing possibilities

SECURED

RECCAP Standard / AXImini

Get the most from your sensors' potential

Performances

Cost-effective

One single piece of software for all your AXIminis.

SQL database with crash-proof server-based search function

F₀, P₀, cook value calculations with settable coefficients

Dynamic multilingual (French, English, German)

Calibration alert management

Advanced graphical analysis

3 export formats

Word, Excel, pdf

Specificities

"Open" license from 1 to 999 sensors

3 levels of comments per recording

with save function for enhanced data utilization

Automatic reporting

Development options

Communication with other

sensor types (see with us)

Several other performance levels

Pro, Expert, 21 CFR
