

P&P Box Expert

Exploitation of your data to optimise your scales

- Plug and Play
- Autonomous
- The most complete

	Autoclave	Sterilizer	Microwave
Easy to use	●●●●○	○○○○○	○○○○○
Repeatable measurements	●●●●○	○○○○○	○○○○○
Field accuracy	●●●●○	○○○○○	○○○○○
Quick to use	●●●●○	○○○○○	○○○○○

OPTIMAL

P&P Box Expert

Exploitation of your data to optimise your scales

Performance

4-track box as standard

Display and acquisition of the following values:

Distortion: 40 mm stroke, sensitivity 0.1 mm

Pressure: -1 to +5 bar, accuracy +/- 30 mbar

Temperature: 0°C to +140°C, accuracy +/- 0.20°C

Possibility of adaptation to rotary autoclave

Calculated values: Fo / Po / steam % / Pressure differential
3.7 inch, colour touch-screen, watertight (IP 66)

Specificities

All functions and displays accessible in real time

Autonomous acquisition and viewing of data

Instantaneous calculation of Fo / Po, pressure differential, steam %...

Presentation of data in the form: numeric, graphic, statistical

Assisted control: distortion, Fo / Po, pressure differential, steam %

Data in .csv accessible on SD card

Main power supply

Fully maintenance free

Operation without PC connected

Applications

Quality control of autoclaves and products

Development of recipes

Development of packaging

Optimisation of scales
