

## Software RECCAP

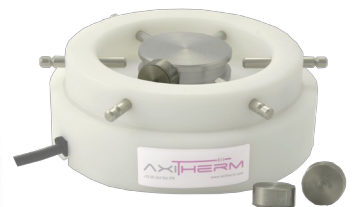

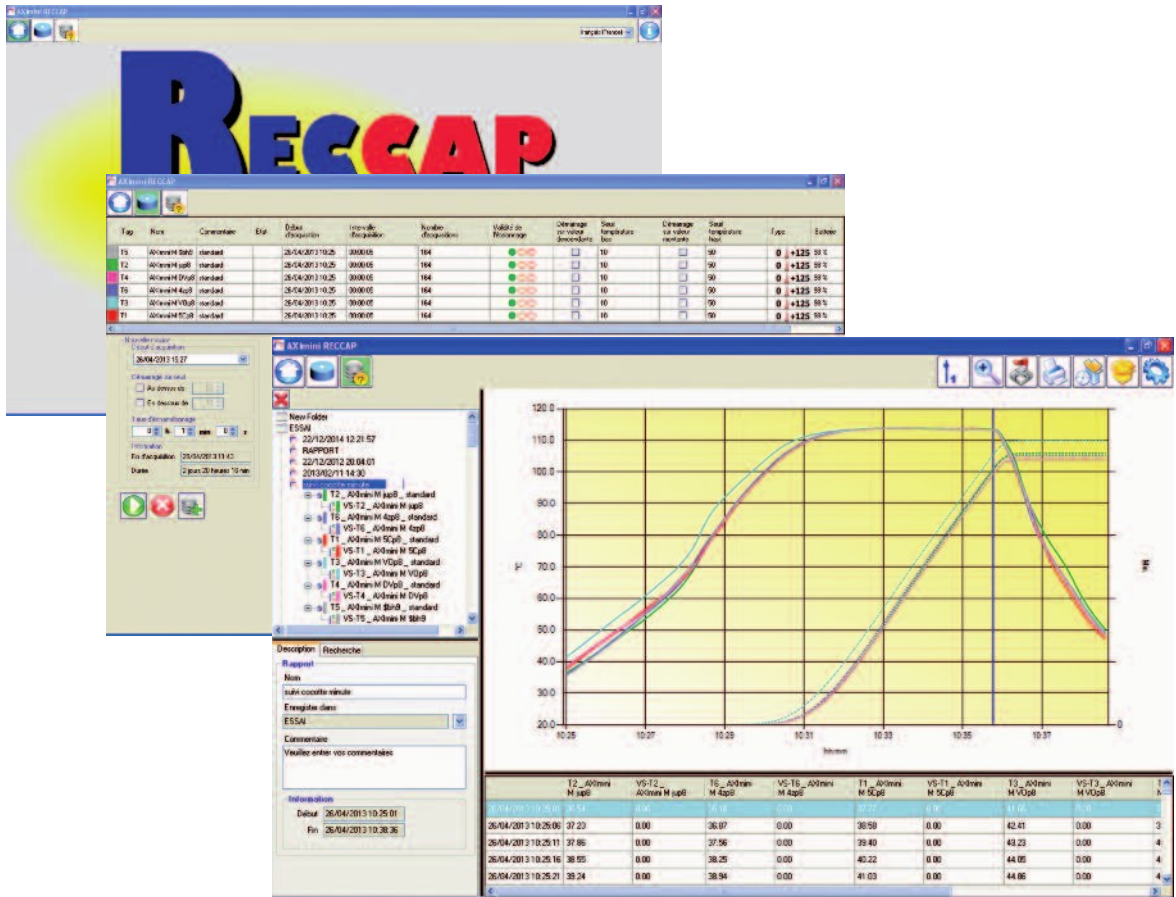

Exploit the full potential of your data loggers

°C  
Fo  
Po  
Co

**History** secure in database

**Intuitive** and efficient

**Simultaneous** management of 30 loggers

## Software RECCAP

### Exploit the full potential of your data loggers

#### Use

**Programming and reading** of Aximini, Aximicro, HeatLOG and ThingLOG miniature temperature data loggers

**Synchronized display** of temperature curves

**Calculation** of Cooking, Pasteurizing and Sterilizing Values

#### Specificities

**Economy:** 1 single software for all your miniature temperature data loggers

**License associated** with the number of sensors used and not the number of computer stations

**Installing** the database on user or server station (option)

**Dynamic multilingual:** French, English and German

#### Performances

**Complete graphic** functions

**Database history** management (SQL)

**Logger calibration** management

**Configurable calculation** of Cooking and Pasteurizing Values

**Automatic creation** of the report

**Export data** under Word, Excel and pdf
