PROGRAMME

MONITORING THE TEMPERATURE OF PRODUCTS

- Process validation
- Real time or recording of $T^{\circ}\text{C}$
Fo / PU Calculations
- Recipe development

P&P Box
Temperature

Miniature and
loggers rodless

Loggers with
temperature rod

PACKAGING DEFORMATION NOTICED ?

- Elimination of packaging deformation
- Change of material
- Plastic thickness reduction

Distortion
probe

P&P Box
deformation

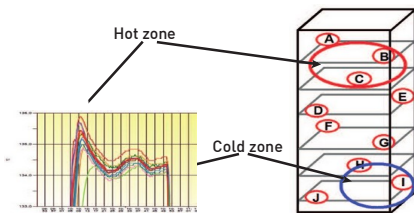

Digital manometer
/ Vacuum meter

NEED FOR RETORT OPTIMIZATION ?

- Energy saving
- Production efficiency
- Thermal mapping for all types of equipment

Expert

MONITORING THE TEMPERATURE OF PRODUCTS

We offer a wide range of solutions for temperature measurement and Fo / PU calculations.

PACKAGING DEFORMATIONS NOTICED ?

We intervene on industrial sites and train you on our equipment which you can then rent.

NEED FOR RETORT OPTIMIZATION ?

We reduce energy consumption and optimise production efficiency.

KEY STRENGTHS

- Hire / Purche
- Support / Training
- Technical Assistance
- Pressure / Temperature calibration
- Any type of retort
- Every type of packaging
- International deployment
